CORE SKILLS

React: Hooks, Context, Redux, Router, Jest, Gatsby, Lazy/Suspense, JSX, ChartJS, Life-Cycles
Other Front-End: JavaScript(ES6), HTML5, CSS, Bootstrap, jQuery, MaterialUI, Salesforce Lightning
Back-End: Node, Java, Express, Fetch, Axios, REST, GraphQL, MongoDB, MySQL, NPM
Other Tools: Webpack, Babel, Git, Netlify, Jira, Canva, Postman

EXPERIENCE

OppenheimerFunds, Inc. (Invesco)
Assoc. Solutions Engineer

6/2018 - 10/2019

Developed CRM software to support sales distribution teams: JavaScript, HTML/CSS, Salesforce, SOQL

- Designed and developed the UI for a Lead Score sales component, that took in pre-processed client data and outputted recommendations for moving the lead through the conversion pipeline.
- Developed Actionable Leads page that queried for all clients in a given financial advisor's region, displayed their various client data, and presented the tools to carry out next steps.
- Cleaned and imported over 3 million records with a 98% success rate into the OppenheimerFunds' CRM as part of the Invesco acquisition and subsequent decommissioning of Invesco's older CRM.
- Led an overhaul of the team's DevOps process, by teaching consultant teams a new continuous deployment tool and focusing on smaller iterations to deliver faster code and shorten feedback loops.
- Configured and trained users in a CRM-integrated outreach tool, that allowed clients to create meetings on an advisor's calendar and automatically fetch that client's data to attach to the meeting.
- Held a leadership role by heading daily Agile standups, creating presentations for interns, participating in ToastMasters International, and conducting technical interviews for new-hires.

StoryCorps, Inc.
Web Engineer Intern

6/2016 - 1/2017

Front-End development for multiple web-based projects: JavaScript, HTML/CSS, WordPress

- Engineered the UI/UX for a re-designed Webby Award honored website (*storycorps.org*).
 - Designed and launched a social media platform (*archive.storycorps.org*) with over 172,000 posts.
 - Constructed bug reports for a TED Prize winning, Webby Award nominated mobile application.
-

PROJECTS

- **BrianLandvogt.com (2018)** - React PWA with near perfect audit ratings from Google Lighthouse.
 - **Binder (2017)** - Developed the UI and business strategy for a P2P marketplace app that cut textbook costs for students by 36% (3rd in the NY State Regional Business Plan Competition).
 - **Wi-Move (2016)** - Designed the UI for a proposed Wi-Fi mesh-network to gamify the promotion of small businesses and expand data coverage (1st in Brooklyn BE.INnovative Hackathon).
-

EDUCATION

Long Island University

Brooklyn, NY | 9/2014 - 12/2017

- Bachelor of Science in Computer Science, with Honors (3.7/4.0 GPA)
- Texas A&M Information Security Certification (ID: #500132)
